

# Sheet Bending Welding Machine

**SWT-ZW Series**

 **MM-Tech**

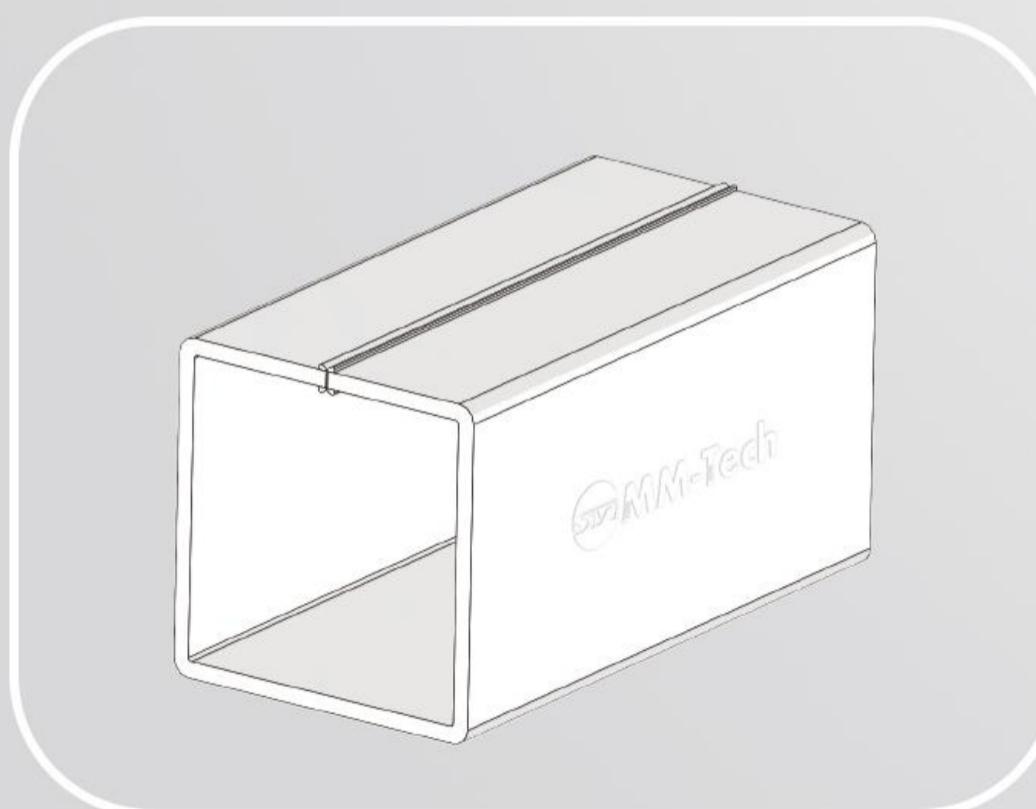

## SWT-ZW SERIES

New steel structure, the mechanical synchronous transmission technology, through the SMC Electric Proportional Valve, pressure in the weld region to achieve uniform.

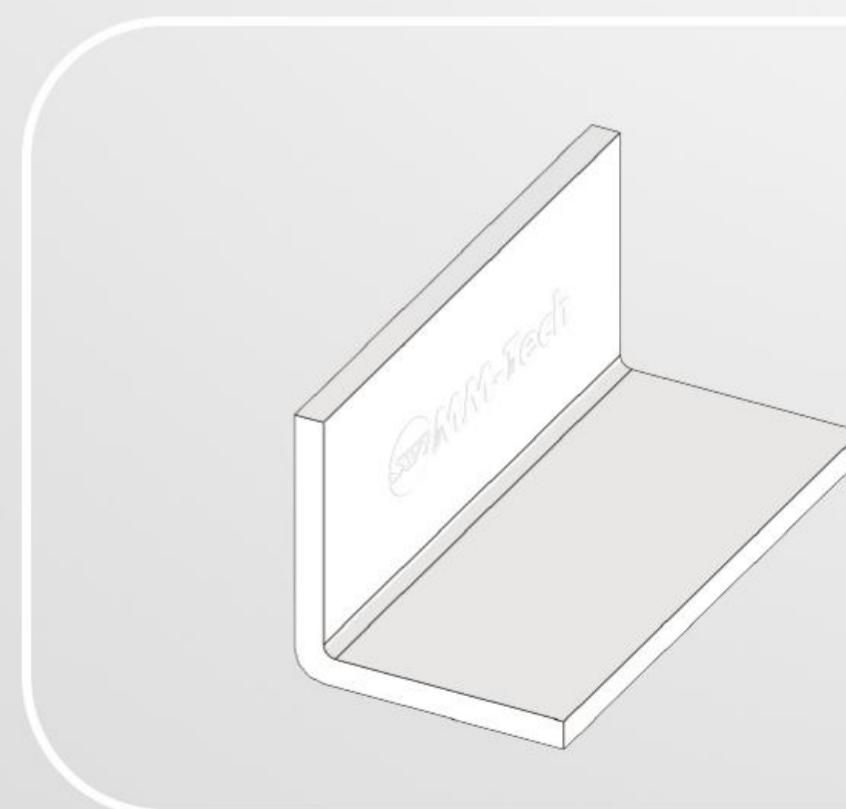

- High-density locking clamps that provide a homogeneous pressure distribution
- Compliant with welding standards DVS 2207. Suitable for all types of thermoplastic sheets (PE, PP, PVC, PVDF, PC, ABS, Acrylic).
- The Control system adopts Siemens / Mitsubishi PLC, with 10-inch touch screen.
- Built-in welding pressure and temperature can be selected according to material type and thickness.
- Weldable thicknesses: 3-50mm, hollow sheet up to 80mm. Bending thickness: 3-25mm.
- LED lights through the entire welding area.

**Bending**  
(Touch Welding)

**Bending**  
(Non-touch Welding)

**0 - 95° Bending**

# SHEET BENDING WELDING MACHINES SWT-ZW3000

This plastic sheet bending machine is suitable for bending thermoplastic sheets made of PE, PP, PVC, PVDF, PC, ABS, Acrylic.

## 1 Basic Function

0 - 95° Bending by one sheet

## Optional accessories

Optional: Heating Knife for Station 2/3/4

## Features

- ✓ Compliant with the welding standard DVS2207
- ✓ Automatic welding system
- ✓ Hinge connection welding more accurately
- ✓ Pneumatic Locking Clamps
- ✓ Dual digital display thermostat
- ✓ The equipment used the best components of Festo, Siemens, and Schneider Electric
- ✓ Multi-point control clamp lifting
- ✓ Heating Plate Teflon was Coated by Dupont
- ✓ Optional rocker arm device / column device
- ✓ Siemens / Mitsubishi PLC with 10-inch touch screen
- ✓ Bending thickness range 3 - 25 mm

## Specifications

Bending Length	3000mm
Bending Thickness	3-25mm
Weldable Materials	PE, PP, PVC, PVDF, PC, ABS, Acrylic Twin Wall sheets
Power Consumption (KW)	8KW
Bending Angle	0-95° Adjustable
Timing	Yes
Alarming	Buzzing
Sheet Locking Clamps	Pneumatic
Welding System	CNC
Power Supply	AC 380V 3P 50/60Hz
Compressed Air Connection (bar)	6-8 kg/cm <sup>2</sup>
Display	10 inch WEINVIEW
Hardware Control Panel	SIEMENS / MITSUBISHI PLC
Full load Current(A)	18A
Upper Heating Plate Power	2P, 4.0kW
Lower Heating Plate Power	2P, 4.0kW
Power Cable Size	4*4mm <sup>2</sup>

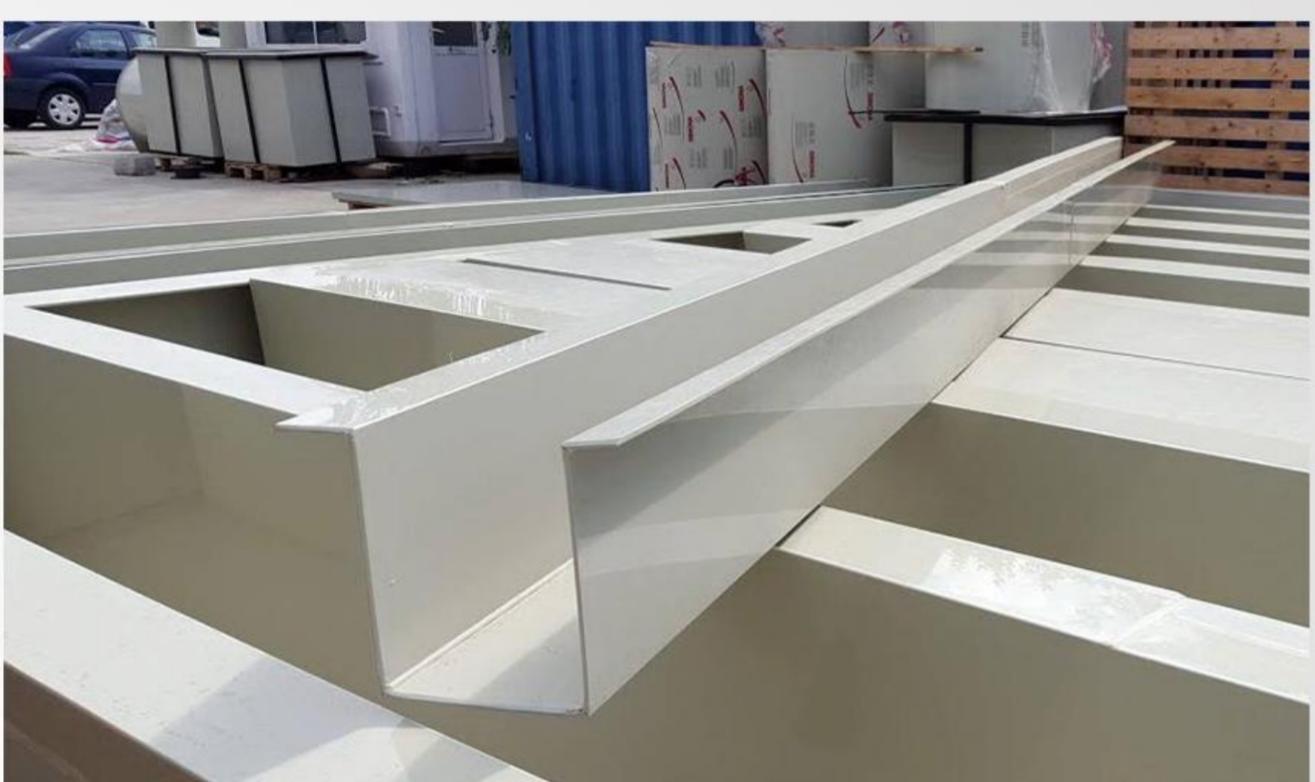

# APPLICATION

Plating Tanks

Scrubber

Ventilation Systems

Water Containers

Swimming Pool

Water Tank

Aquaculture

Water Treatment Systems
